PODAR INTERNATIONAL SCHOOL

PERIODIC TEST 1 (2024-25)

Std.: VII **Sub.: Science**

Time Allowed: 1 hour **Maximum Marks: 20**

General Instructions:

Read the following instructions very carefully and strictly follow them:

(i) *This question paper comprises **9** questions. **All** questions are compulsory.*

(ii) *This question paper is divided into **five** sections – **A**, **B**, **C**, **D** and **E**.*

(iii) ***Section A** – Questions No. **1** to **4** are Multiple Choice Questions. Each question carries **1** mark.*

(iv) ***Section B** – Questions No. **5** to **6** are Very Short Answer type questions. Each question carries **2** marks. Answers to these questions should be in the range of 30 to 50 words.*

(v) ***Section C** – Question No. **7** is a Short Answer type question carrying **3** marks. Answer to this question should be in the range of 50 to 80 words.*

(vi) ***Section D** – Question No. **8** is a Long Answer type question carrying **5** marks. Answer to this question should be in the range of 80 to 120 words.*

(vii) ***Section E** – Question No. **9** is a source-based/case-based units of assessment carrying **4** marks each with sub-parts.*

(viii) *There is no overall choice.*

SECTION – A

*Select and write the most appropriate option out of the four options given for each of the questions no. **1** to **4**.*

1. _____ are flat teeth, with a chisel-like sharp edge that help to bite and cut food into small chewable pieces. 1

   (a) Incisors
   (b) Canines
   (c) Premolars
   (d) Molars

2. Kiran and Vijay listed the organisms as detritivores in the given table. 1

Kiran	Vijay
Fungi	Earthworm
Bacteria	Dung beetle

   (a) Only Kiran
   (b) Only Vijay
   (c) Both Kiran and Vijay
   (d) Neither Kiran nor Vijay

3. The given picture shows the four chambers of the cow's stomach. 1

In which chamber is the water present in the food partially absorbed?

(a) 1
(b) 2
(c) 3
(d) 4

Question No. 4 consists of two statements – Assertion (A) and Reason (R).
Answer this question selecting the appropriate option given below:

(a) Both A and R are true, and R is the correct explanation of A.
(b) Both A and R are true, and R is not the correct explanation of A.
(c) A is true but R is false.
(d) A is false but R is true.

4. Assertion: Leech is an ectoparasite. 1
Reason: Leech obtains nutrition from outside the body of the host.

SECTION – B

*Questions no. **5** and **6** are very short answer type questions.*

5. Identify the part that aids in ingestion for the following organisms: 2
   (a) Butterfly
   (b) Paramecium

6. Haustoria are also called sucking roots. Justify this statement. 2

SECTION – C

*Question no. **7** is a short answer type question.*

7. 'X' is formed by a symbiotic relationship between autotrophic algae and heterotrophic fungi. 3
   (a) Identify 'X'.
   (b) How do the algae and fungi benefit from this relationship?

SECTION – D

*Question no. **8** is a long answer type question.*

8. Green plants make their food from carbon dioxide and water in the presence of chlorophyll by using light energy from the Sun. 5
   (a) What is this process called? Write the end products of this process.
   (b) How is carbon dioxide taken up by plants from the atmosphere for this process?
   (c) Name the mode of nutrition in green plants.

SECTION – E

The following question is a source-based/case-based question. Read the case carefully and answer the questions that follow.

9. The table given below shows the hints given by the quiz master in a quiz. 4

S.NO.	HINT
(i)	The stomach churns the food with the gastric juices and converts the partially digested food into a thick semi-fluid mass known as 'X'.
(ii)	Gastric juices are secreted by the stomach that contains 'Y' and an enzyme called 'Z'.
(iii)	The mucous lining of the stomach protects it from the corrosive effects of 'Y'.

Based on the above hints, answer the following questions.
   (a) Identify 'X'.
   (b) What is the function of 'Z'?
   (c) Give two functions of 'Y'.
