PODAR INTERNATIONAL SCHOOL
PERIODIC TEST 1 (2024-25)

Std.: VII	**Sub.: Science**
Time Allowed: 1 hour	**Maximum Marks: 20**

General Instructions:

Read the following instructions very carefully and strictly follow them:

(i) *This question paper comprises **9** questions. **All** questions are compulsory.*

(ii) *This question paper is divided into **five** sections – **A**, **B**, **C**, **D** and **E**.*

(iii) ***Section A** – Questions No. **1** to **4** are Multiple Choice Questions. Each question carries **1** mark.*

(iv) ***Section B** – Questions No. **5** to **6** Very Short Answer type questions. Each question carries **2** marks. Answers to these questions should be in the range of 30 to 50 words.*

(v) ***Section C** – Question No. **7** is a Short Answer type question carrying **3** marks. Answer to this question should be in the range of 50 to 80 words.*

(vi) ***Section D** – Question No. **8** is a Long Answer type question carrying **5** marks. Answer to this question should be in the range of 80 to 120 words.*

(vii) ***Section E** – Question No. **9** is a source-based/case-based units of assessment carrying **4** marks each with sub-parts.*

(viii) *There is no overall choice.*

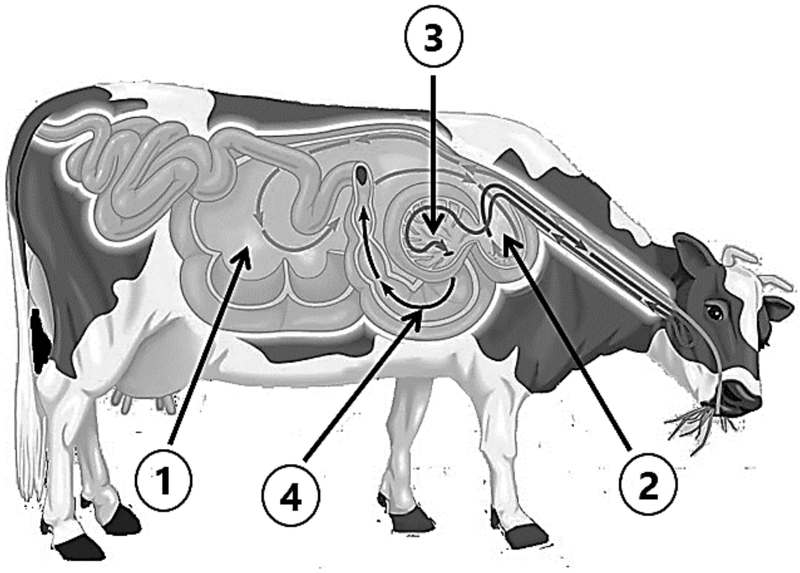
SECTION – A

*Select and write the most appropriate option out of the four options given for each of the questions no. **1** to **4**.*

1. __________ are flat teeth, with a chisel-like sharp edge that help to bite and cut food into small chewable pieces. 1
   (a) Incisors
   (b) Canines
   (c) Premolars
   (d) Molars

2. Which of these plants does NOT show a symbiotic relationship? 1
   (a) Pea plant
   (b) Indian pipe
   (c) Coral root
   (d) Sundew plant

3. The given picture shows the four chambers of the cow's stomach. 1



In which chamber is the water present in the food partially absorbed?
(a) 1
(b) 2
(c) 3
(d) 4

Question No. 4 consists of two statements – Assertion (A) and Reason (R).
Answer this question selecting the appropriate option given below:
(a) Both A and R are true, and R is the correct explanation of A.
(b) Both A and R are true, and R is not the correct explanation of A.
(c) A is true but R is false.
(d) A is false but R is true.

4. Assertion: Epiglottis prevents the food from entering the windpipe. 1
Reason: When we swallow food, the epiglottis opens to allow the air to pass into the windpipe.

SECTION – B

*Questions no. **5** and **6** are very short answer type questions.*

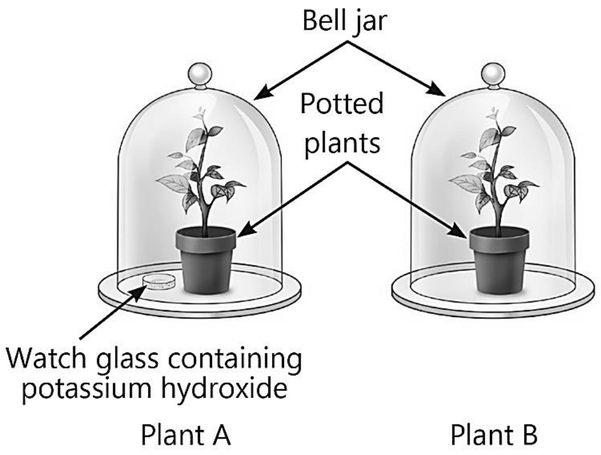
5. Mistletoe and Cuscuta are both parasitic plants. 2
Which of these is a hemi-parasite? Give reason for your answer.

6. Identify the part that aids in ingestion for the following organisms: 2
(a) Butterfly
(b) Paramecium

SECTION – C

*Question no. **7** is a short answer type question.*

7. Megha took two de-starched potted plants. She placed the given setup in the sunlight for 3 to 4 hours. She then plucked a leaf from each plant and conducted a starch test. 3



(a) What will Megha observe?

(b) What is the role of potassium hydroxide in this experiment?

SECTION – D

*Question no. **8** is a long answer type question.*

8. (a) There are two types of organisms based on how they break down dead organic matter to release nutrients. 5
What are such organisms called? Mention their two types.

(b) What is crop rotation? How does it help in increasing the soil fertility?

SECTION – E

The following question is a source-based/case-based question. Read the case carefully and answer the questions that follow.

9. The table given below shows the hints given by the quiz master in a quiz. 4

S.NO.	HINT
(i)	The stomach churns the food with the gastric juices and converts the partially digested food into a thick semi-fluid mass known as 'X'.
(ii)	Gastric juices are secreted by the stomach that contains 'Y' and an enzyme called 'Z'.
(iii)	The mucous lining of the stomach protects it from the corrosive effects of 'Y'.

Based on the above hints, answer the following questions.

(a) Identify 'X'.

(b) What is the function of 'Z'?

(c) Give two functions of 'Y'.
